## Bridging Positive Behavioral Interventions and Supports Tier I to Tier II

PBIS Teams are invited to reflectively bridge their Tier I PBIS systems and plan Tier II PBIS systems. Teams will participate in self-assessment and scale-up plans for Tier I prior to bridging to Tier II interventions.

The training is targeted for K-12 building TEAMS who are implementing PBIS Tier I with fidelity.

The Tier II framework is designed to support small groups of students who are not responding to Tier I support efforts. These supports are more intensive and are targeted to students who are at risk of engaging in more serious problem behavior and need additional support.

**Each Member must have a laptop to fully participate.**

### School Teams Must Bring:

Documentation of:

- Clearly defined expected behaviors
- Procedures for teaching and practicing expected behaviors
- Procedures for encouraging expected behaviors
- Procedures for discouraging problem behaviors
- Procedures for data-based decision making
- Family Awareness and Involvement
- Most current Self-Scored TFI
