Teachers and Curriculum Directors will take a deep dive into the four critical elements (learning goals, intentional planning, flexible methods and materials, and timely progress monitoring) of lesson design and will learn how to locate vetted resources to guide them to design a lesson using the UDL framework.

Attendees should have a basic understanding of the UDL framework. Also, there will be an optional afternoon lab for attendees to stay and collaboratively plan a lesson. (So, bring a friend or make a friend!)

For the PM Lab: Please bring your Wi-Fi device to access online resources and any materials you would need to design a lesson.

Please include any requests for provisions, services, or equipment per the American with Disabilities Act (ADA).
