Wondering how to improve the quality and consistency of ETR and IEP documents written for students with disabilities? The Ohio Department of Education's Office for Exceptional Children (OEC) now expects each district or community school to have a process for internal compliance monitoring.

Please include any requests for provisions, services, or equipment per the American with Disabilities Act (ADA).

District staff should come as a **TEAM** of individuals who can work together across the building and district level to develop a feasible and sustainable approach to internal monitoring. This should include a district Special Education Administrator, but may also include building principal(s), lead intervention specialists, related service providers, and general education teachers from each building.

Please also bring a laptop with Wi-Fi capability and a google account (work or personal) to access resources.
