

Regional Family Engagement Network Meeting

This virtual network meeting supports family engagement in education by bringing school districts, community schools, career technical schools, educational service centers, and county boards of developmental disabilities together in order to access resources and share strategies.

We will explore the updated Ohio Statewide Family Engagement Center's website, Partnering with Families Through Special Education resources, and Middle School Family Engagement Learning Packs.

Participants will have an opportunity to network and have dialogue on ways to engage families and community partners.
