

It takes a village to prepare our students with disabilities.

The purpose of this network is to discuss ways various entities can work together to improve outcomes for students as they transition from school into adulthood. This time will be spent discussing needs of professional learning in districts, collaborating around what has worked in areas of the region, receiving updates from the Ohio Department of Education and Opportunities for Ohioans with Disabilities, and investigating evidence-based practices in the area of secondary transition.

Intended Participants: Special education directors, employment navigators, intervention specialists, building administrators, and anyone else serving students age 14 and older
