

Student-Centered Transition Planning @ JCESC

The purpose of this professional development is to discuss the secondary process through a student lens, build skills for the student-led IEP process and strengthen the secondary transition process for students with disabilities.

We will address secondary transition taxonomy and ways to improve outcomes for students as they transition from school into adulthood. We will review and expand resources for transition from the Ohio Department of Education, Opportunities for Ohioans with Disabilities and other evidence-based practices in the area of secondary transition.
