Questions? Contact charles.tucker@mvesc.org

This network meeting will give District Internal Facilitators, Priority School Principals, Focus School Principals, Warning School Principals, and Community School Administrators an opportunity to share positive things happening during this challenging time and to engage in a discussion related to the One Needs Assessment and Support Tool option.

Morgan Brown from the Office of Federal Programs at the Ohio Department of Education will provide current federal program information. The SST Consultants along with Morgan will also answer any additional questions from other topics.
