

The Power of Sound Walls as a Teaching Tool

We are wired to hear to speak. Current brain research on the science of reading demonstrates the benefits of teaching from "speech to print". Join Dr. Mary Dahlgren, a national literacy consultant and president and founder of Tools 4 Reading, in the professional learning session on "The Power of Sound Walls as a Teaching Tool". Dr. Dahlgren will explain the layout of a sound wall, give examples of how to introduce the sounds and how to build sounds walls.

Registration: www.sstregion12.org/

Date: April 12, 2021
